(962) 799 127 281

Amman, Jordan

A passionate problem solver with 7+ years of experience working in UX and traditional development. Highly skilled in designing and developing interactive and data-driven platforms for both web & mobile experiences.

Experience

Cura Healthcare

Senior Engineer

June 2021 — Present

- Research new technologies, identify and learn best practices, adapt quickly, and provide technical guidance to other team members.
- Established a new product line using state-of-the-art technologies while securing all software requirements of quality, security, modifiability, extensibility, etc.
- Conduct code reviews, and provide feedback to senior engineers to maintain design and code standards.
- Designed & developed hybrid mobile app for Android & IOS using Ionic 5 framework with Typescript & React.js.
- Created minimum viable products, and solved issues directly connected with real-time use-case scenarios.

Product Designer + Frontend Engineer

Nov 2016 — June 2021

- Built interactive cross-browser web apps from scratch with HTML5, CSS3 (Sass), React.js, and .NET with SSR.
- Designed and developed a modern company profile website using HTML5, CSS3, JS, and WordPress.
- Responsible for all cross-platform interface & visual designs, user experience, typography, and screen layouts.
- Rebranded and created company's identity, guidelines, strategy, and all needed graphical resources.
- Participated in developing complex user interfaces in 3 different apps using Xamarin (iOS, Android).

Plexable

Frontend Engineer

June 2015 — Nov 2016

- Collaborate with UX/UI designers to build and deliver carefully studied products for high-profile clients.
- Crafted full-stack websites using technologies like HTML5, CSS3, WordPress (REST APIs), AngularJS.
- Developed full-production eCommerce website using Magento with custom design, features, and capabilities.
- Recommending solutions for streamlined, user-friendly interface with the design team.

Additional experience, design samples, and references are available upon request.
